

Entry checklist

You should include specific examples of how your initiative meets each award criterion and why it is worthy of the award. You'll need:

- A clear description of your project, including rationale, context, objectives, planning and implementation.
- Clear examples showcasing genuine partnership working between employers and trade unions, not simply collaboration. Detail how employers, trade unions and any other relevant partners were brought together, the challenges they faced, and how these were overcome.
- An evaluation of the impact of your initiative. Detail how your initiative benefited patients and/or staff and provide quantitative and/or qualitative data where available.
- A section on the sustainability of your project, transferability, and lessons learnt.
