

# Yorkshire and Humber Social Partnership Forum (SPF)

## Terms of Reference

The Yorkshire and Humber SPF was set up by employers, trade unions and NHS Employers to pursue their common purpose of developing a world-class health and social care service delivered by a world-class workforce in the Yorkshire and Humber region.

Effective partnership working will produce important benefits that include improved services for patients and users and ensure high standards of employment practices in the health and care services in the Yorkshire and Humber region.

## Aims

The Regional SPF aims to provide a modern partnership approach to issues affecting the NHS workforce, where a regional view is needed or would be useful. In particular, it will:

- Keep the patient at the centre of everything we do.
- Identify and promote successful partnership working, which is providing positive benefits to staff, service delivery and patient experience.
- Support and enable a strategic agenda, focused on the NHS Long Term Workforce Plan and other key workforce priorities in Yorkshire and Humber.
- Contribute trade union and employer perspectives at a formative stage, on the possible workforce implications of the development and implementation of policy.
- Promote effective communications between partners.
- Seek and promote good workforce practices across the Yorkshire and Humber region.

- Feed Yorkshire and Humber regional views into the National SPF.
- Support and contribute to the North SPF Conference, which currently meets once per year.
- Ensure regional oversight and scrutiny of local partnership working in the ICS footprint within Yorkshire and Humber.
- At the discretion of the chairs, pick up ad-hoc pieces of work in partnership through designated Task and Finish Groups.
